

REMARKS

Claim 12 is amended to replace the incorrect term “vanes” with the correct term “varies.” As noted in the Office Action of March 19, 2009, the term “vanes” was assumed to be “varies.”

The Amendment also amends the specification to address the objection to the specification by incorporating explicit antecedent basis for the claim terminology: “receiving program data broadcast from one network at a faster rate than the other network.”

These amendments do not constitute new matter and put the application in better condition for consideration on appeal. Accordingly, entry of the proposed amendments is requested.

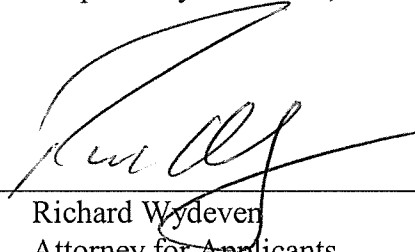

No fee or extension is believed due, but if any fee or extension is required, please charge the cost thereof to Deposit Account No. 02-2135.

Respectfully submitted,
